We want to let you know that our office is now offering the new Quality Dental Plan to everyone in the community. QDP is the nation's premiere dental savings plan, offering individuals and families tremendous savings on all dental needs. Join our QDP today... and you'll receive:

- Included 2 Dental Examinations per year
- Included 2 Simple Cleanings or 2 Periodontal Maintenance visits per year
- Included annual X-rays/Panoramic X-ray every 5 years
- Included Preventive Fluoride twice per year
- An immediate (20%) savings on all dental procedures
- And more!

The cost is only \$399.00 for an entire year and will include a (20%) savings on all dental procedures. As you can see... this represents a significant value. Additional family members can join, too, for only \$349.00.

We have included additional information about our program for your review. Please do not hesitate to call if you have any questions about QDP or if you would like to take advantage of our program. We are so excited to offer a solution to our community for those who do not have dental insurance or for those who have exhausted their annual insurance benefits. With our QDP, there are no claim forms, no deductibles, no limit to benefits and no waiting period.
